Sec. B.700 - Civil Rights & Environmental Justice

As a recipient of federal funds, the Agency and its departments must comply with civil rights and nondiscrimination statutes, such as Title VI of the Civil Rights Act of 1964, and the implementing regulations associated with the federal agency providing the financial assistance. In addition, Act 154 (S.148) established an environmental justice (EJ) policy for the State of Vermont which creates new EJ-related responsibilities for State agencies, requires development and maintenance of an EJ mapping tool and forms two new bodies to support policy implementation. The Civil Rights and Environmental Justice unit supports and advances compliance with these State and Federal laws.

Sec. B.700 - Civil Rights & Environmental Justice

Civil Rights and Environmental Justice Unit (CREJU) responsibilities under the Vermont Environmental Justice Law (Act 154 of 2022):

- Provide quality and timely technical assistance to the Advisory Council (AC), the Interagency Committee, and the covered agencies.
- Support ANR and sister agencies in adhering to actions required of covered agencies under Act 154.
- Ensure timely, coordinated implementation across all covered agencies and the two advisory bodies.

2025 Highlights and Accomplishments:

- **Environmental Benefits:** Completed the Environmental Benefits Spending Guidance on September 15, 2025.
- **Community Engagement:** Coordinated the development of a Community Engagement Subgroup made up of members of the AC and covered agency staff.
- **Environmental Justice Mapping Tool:** Hired contractors for the Environmental Justice Mapping Tool.
- **Technical assistance:** Provided over 130 hours of tailored technical assistance to VT EJ Law partners.
- **Cumulative Environmental Burden Rulemaking:** Developed a workplan and legal framework to begin rule development; rulemaking will take place in 2027.
- **Annual Reporting:** Developed a workplan to improve complaint intake processes across covered agency in accordance with AC 2024 recommendations.

Sec. B.700 – Office of Policy and Planning

The Office of Policy and Planning works with staff from all three departments to represent ANR in proceedings before Act 250 District Commissions, LURB and the PUC, and leads development of cross cutting Agency policy. Providing a unified position across ANR's many departments and divisions is critical for project developers and interested citizens to navigate the regulatory process and necessary to inform decision-making bodies such as Act 250 commissions and PUC. Members of this Office also provide case management for large, complex projects that intersect concerns in multiple Agency-administered programs.

Sec. B.700 – Office of Policy and Planning

- ANR is a statutory party in Act 250 and Public Utility Commission proceedings, required to provide evidence and recommendations on project's compliance with Act 250 and Sec. 248's environmental criteria.
 - The Office distributes materials for **newly filed applications to over 100 technical staff in ANR's three departments each week**, coordinating staff review, compiling staff comments, reconciling internal disagreements, drafting proposed permit conditions, and representing the agency at hearings.
- The Office also plays a significant external role providing guidance and technical assistance to potential applicants on how to configure projects to meet applicable criteria and in developing new policy.
- With the creation of the LURB and passage of Act 181, the Office is leading ANR's review of updated regional Future Land Use maps and LURB rulemaking for Tier 3, Criteria 8C, and Tier 1A guidance.
- In FY25 ANR **reviewed 260 Act 250 applications and 35 PUC applications.**

Sec. B.700 – Climate Action Office

The Climate Action Office (CAO) provides inter-governmental coordination, expertise and capacity for state-led climate initiatives, as well as monitoring, assessing and tracking implementation of climate adaptation, mitigation, and resilience activities to evaluate progress over time. The CAO is focused on three core areas: climate program coordination, on-going support for the Vermont Climate Council including periodic updates to Vermont's Climate Action Plan, and community and stakeholder engagement. To carry out this work, the CAO works closely with staff across ANR, other state Agencies, the state climatologist, and key stakeholders.

Sec. B.700 – Climate Action Office

- 2021 initial Climate Action Plan (CAP) recommended establishing a Climate Action Office; CAO was proposed by Governor Scott as part of his FY23 Budget Recommend.
- Since its creation, key CAO accomplishments include:
 - Supporting the Climate Council's development of the updated 2025 CAP.
 - In partnership with the Treasurer's Office, developing Vermont's first Climate Resilience Implementation Strategy (RIS), conducting an evaluation of cap-and-invest program feasibility for Vermont, and supporting implementation the Climate Superfund Act.
 - Establishing an Inter-Agency Advisory Committee on climate policy, provided capacity and support for climate action at PSD, VTrans, Labor, AAFM and other state agencies
 - Managing multiple technical analyses on climate issues.
 - Developing a climate change vulnerability index and climate tool-kit for municipalities.
 - Managing multiple rulemakings that result in reduced GHG emissions and improved the accuracy of the state's climate data.
 - Securing significant grant funding from EPA and the NGO sector.
- CAO tracks progress towards the GWSA emissions reduction requirements and supports modelling and other contract capacity to assess progress and inform cost effective future emission reduction measures.

Sec. B.700 – Climate Action Office

Grants Administered

- Starting in FY27 the CAO will administer the annual Drive Electric Grant, which was transferred from the Department of Environmental Conservation.
