Permit Fund	Review of permit applications to protect wetlands and the significant functions and values they provide	Property owners, municipalities, and developers	Lean identified a need for a fee to provide a disincentive for applicants to apply before all needed information in application is obtained. We want to encourage applicants to reach out to us for help before applying, but after an application is deemed administratively complete there can be many iterations of the application which is difficult for us to keep track and means that an application is read multiple times, reducing our efficiency. Fee will be administered each time supplemental information is added. For instance, if a site plan changes twice, \$100 will be charged each time for a total of \$200.
