

18 V.S.A. §XXXX. Reporting requirements.

(a) The Department of Health shall make rules to facilitate the collection of information regarding compliance with 18 V.S.A. § 5283 OR this chapter including query information from the Vermont Prescription Monitoring System. Except as otherwise required by law, the information collected shall not be a public record and may not be made available for inspection by the public.

(b) The Department shall generate and make available to the public an bi-annual statistical report of information collected under subsection (a) of this section so long as the release of such information is compliant with the federal Health Insurance Portability and Accountability Act of 1996.
